

MICRO SIM CARD

GTMSIM01P1

Micro SIM Card Plastic C3 Panel Jack Screw Dip

Specifications:

Contact: 7PIN

Current Rating: 0.5A

Temperature Range: -40° / +75°

IP Rating: IP 67

Micro SIM Card Waterproof Connector: Keeping Connectivity Flowing Underwater

A micro SIM card waterproof connector is a specialized component designed to safeguard your SIM card and maintain cellular connectivity in wet environments. Unlike standard SIM card slots, these connectors offer an extra layer of protection against water damage, making them ideal for devices like:

Rugged smartphones
Underwater cameras
Marine electronics etc.
